INTRODUCING THE ALL-NEW F67 THE LATEST ADDITION TO THE F-LINE RANGE

Space to unwind.
Freedom to roam.
Wherever the road
leads, the F67 is ready.

The Auto-Trail F-Line F67 is designed for those moments that matter most on the road, waking up somewhere new, taking your time over breakfast, and ending the day in a space that feels unmistakably your own.

Born from one of Auto-Trail's most successful layouts and shaped by real dealer and customer insight, the F67 takes everything people loved about the 675B and reimagines it for today's touring lifestyle. Wider, calmer, and more refined, it's a motorhome created not just to travel in, but to truly live in.

Step inside the F67 and the wider body immediately sets the tone. There's room to move, room to relax, and a sense of balance that makes the interior feel light and effortless. The front lounge, with its comfortable bench seating as standard, is a place to unwind. Whether that's stretching out with a book, sharing a meal, or watching the world go by through panoramic windows. When evening draws in, the space transforms easily, keeping the day flowing without interruption.

At the rear, the generous washroom brings everyday comfort into your travels, while enhanced storage ensures nothing needs to be left behind.

The L-shaped kitchen offers the freedom to cook properly on the road, with ample workspace and a large fridge-freezer for longer stays. Every detail has been considered to make life feel easy, intuitive, and unhurried.

Thanks to the wider body, the F67 also offers the option of an electric drop-down bed, neatly disappearing when not in use, and providing true rectangular sleeping space without compromising the open feel of the living area. It's flexibility designed to adapt to how you travel, not the other way around.

Backed by Auto-Trail's industry-leading warranties and decades of British motorhome expertise, the F67 is built to support your adventures today, tomorrow, and for years to come.

IT'S A GAME CHANGER THE AWARD WINNING EXPEDITION 54

The Expedition 54 is one of the UK's most affordable campervans. Compact yet feature-packed, it offers the perfect entry point into motorhome ownership without compromising on quality or comfort. It represents outstanding value for anyone ready to embrace the freedom of the open road.

Despite its manageable 5.4m length, the Expedition 54 is cleverly designed to maximise every inch of space. Inside, you'll find a fully equipped kitchen, complete with Thetford oven, grill, sink, and workspace, allowing you to cook with ease while travelling. The bathroom includes a shower, toilet, and sink, giving you complete independence wherever your journey takes you.

Built with Auto-Trail's trusted craftsmanship, the Expedition 54 delivers durability and reliability as standard. Features such as USB charging points, modern lighting, and practical storage solutions add everyday convenience, while options like a Thule bike rack or reversing camera allow you to tailor it to your lifestyle.

Stylish, affordable, and highly versatile, the Expedition 54 makes motorhome travel accessible to more people than ever. It's proof that you can enjoy comfort, practicality, and quality at a price that doesn't break the bank.

EXPEDITION 2026 COMPACT VANS, BIG ADVENTURES

Compact and flexible — the new Expedition 2026 range is designed for those who want to explore more, without giving up comfort

The 2026 Expedition range has arrived, offering the perfect balance of compact practicality and adventurous spirit. Whether you're planning quick weekend escapes or longer road trips across Europe, the Expedition lineup has a model to suit your lifestyle.

The range now starts with the Expedition 54, a 5.4m model that brings clever use of space at an affordable entry price.

At the other end of the scale, the new 68 XL Flex model offers incredible versatility with an electric drop-down bed and flexible sleeping arrangements — ideal for taller travellers or those who need a layout that adapts to their plans. Comfort has been given a serious upgrade across the lineup. From quilted upholstery with a modern hexagonal stitch pattern to black reading lights with built-in USB charging ports, every detail is designed with the modern adventurer in mind. Optional extras like the Pioneer reversing camera, bike racks, and TV aerials mean you can customise your Expedition to fit your needs.

And it's not just about comfort inside. Standard features now include solar panels across the van range, giving you extra off-grid independence, while Isofix seatbelts are available as a cost option for families. These thoughtful touches reflect Auto-Trail's commitment to making every journey more enjoyable, safe, and sustainable. For couples, solo explorers, or first-time motorhome owners, Expedition offers a flexible, well-equipped way to experience the open road. It's the ultimate companion for those who believe the journey is just as exciting as the destination. Explore the 2026 Expedition range and start planning your next adventure.

This Expedition range is perfect for first-time tourers, with their compact and sleek design, allowing you to navigate busy cities and winding country roads with ease. Inside, expect USB-equipped reading lights, upgraded ovens and practical storage enhancements.

For 2026, the Expedition range has grown to include three exciting new models: the Expedition 54, Expedition 68 XL, and Expedition 68 XL Flex.

The all-new Expedition 54 is a truly compact camper, measuring just 5.4 metres in length. It's perfectly suited for couples or solo travellers seeking adventure. Designed with the outdoor enthusiast in mind, the Expedition 68 features a custom-built internal garage. And now for 2026, the Expedition 68 line offers even more versatility with two additional models. Including the Expedition 68 XL, which allows sleeping down the vehicle and the Expedition 68 XL Flex which features an electric bed that lowers for easy access on to the bed and raises to a high level to accommodate larger items in the garage below.
